

Business Managers Report for August 2025

Members available for work: Plumbers-5, Fitters-10, Apprentices-18, HVAC-1

Members Traveled Out- 37

The month of July we had 107 call outs, I attended the Southwest pipe trades conference this past month, the main discussion was about future industrial work coming to Texas. 31 industrial projects expected to hit this year and into the next year in our jurisdiction, totaling 4 billion dollars' worth of work. We will continue to grow our local so that we can provide all manpower that will be needed and use this opportunity to gain market share.

Quanta Services has completed the acquisition of Dynamic Systems (DSI), DSI will remain as DSI and continue with its values and culture in place. This acquisition allows Quanta to enter the market with already an opportunity to grow its market share quicker than starting from scratch. We welcome and look forward to working with Quanta Services as they continue to serve their customers.

We had a special call meeting on July 2nd our members voted and passed the 3-year proposed contract which brought local 142 members a 17% pay increase as well as a 5% increase for all apprentices. Thank you to everyone who came out to vote.

There is a new feature added to the website, you are now available to sign up for med gas & plumbing continuing Ed. on the www.local142 website, you can still call the training department as well to sign up for continuing ed.

Fraternally,

Trino Baltazar

Business Manager
