

Business Managers Report for August 2026

Members available for work: Plumbers-3, Fitters-0, Apprentices-11, HVAC-2

Members Traveled Out- 61

The month of July saw a total of 125 members dispatched to work. We are in an excellent position currently. Our members continue to do the right things by showing up to work every day, working safely, and remaining productive. Call outs are increasing and are expected to continue throughout the year. This makes it a good time to continue saving while the work is strong so you're in an even better position when the right opportunity comes along. Our current membership stands at 1,632 with 64 members traveling out.

We are pleased to announce a new enhancement to our health insurance benefits. Effective October 1, 2026, our health plan will now include hearing aid coverage. This is a benefit that has been discussed and requested by many of our members over the years, and we are happy to share that it is now officially part of our health insurance plan.

The delegates of Local 142 will be attending the 41st UA General Convention in San Diego California, from August 17 through August 21. We look forward to representing the members of Local 142 and bringing back valuable information that will help strengthen our local and continue moving our membership forward.

We would like to inform everyone that applications for the Apprenticeship Director position are now being accepted. If you are interested in applying, please stop by the Union Hall to pick up an application. We encourage all qualified members to apply.

Fraternally,

Trino Baltazar

Business Manager
